Employment History

April 2019 – Nov 2020

British Airways

London, UK

First Officer

A scheduled passenger service across the UK and Europe. I was also trained as a Sim Panel Operator to operate the simulators on a voluntary basis to allow pilots to practice their skill set.

Airbus 320

500+ Hrs

Dec 2016 – Feb 2019

BMI Regional

Bristol, UK

Senior First Officer

A scheduled passenger service across the UK and Europe.

Embraer 135/145

1132 Hrs

April 2015 – Dec 2016

GlobeAir AG

Linz, Austria

First Officer

As a result of the Pilot Intern program at FlightSafety International I flew as a First Officer throughout Europe in the niche market of customised business flights. The operation included Special Airport Approaches flown on a regular basis.

Citation Mustang Hours

937.2 Hrs

Compliance Monitoring Manager Deputy – Ensuring the safe and airworthy operation within accordance of EU-OPS regulations. This involved audits and organisation of company records and documentation.

May 2014 – May 2015

FlightSafety International

Farnborough, UK

Pilot Intern

The Pilot Intern program involved assisting pilots during type specific training. This gave me constant exposure to high quality training and a wide variety of crew pairings enhancing my MCC, CRM and TEM competencies as well as my HPCA handling proficiency. I also completed a range of pilot enrichment courses and special airport/steep approach training.

Education & Qualifications

2010 – 2013 BA (Hons) 2:1 Air Transport Management with Commercial Pilot Training [Bucks New University]

Flight training completed as part of Bachelor's degree.

Student Ambassador – I bridge the gap between university and the professional world of Aviation.

2002 – 2009 GCSE's & A-Level's Maths, Psychology, Information Communication Technology [Chesham High School]

About Me

As well as having a passion for aviation, a few of my social interests include skiing, cycling, rowing and attending live music performances. I would consider myself a valued member in any team situation, and as a focused individual I aim to excel where possible. Working as a commercial pilot I have been able to turn an interest into a career and lifestyle.
